Project : HA Nutrition Subcommittee_Workplan Chart

Start : 3/21/08

End : 7/3/08

Organization : IAAA Nutrition Subcommittee

Web Link : <http://>

Description : Identify how to address the problem of inadequate Medicaid Waiver rate versus the value of home delivered meals. IAAA will survey the AAAs for anecdotal data over the last six months where the individual delivering the meal was able to provide intervention that affected the meal recipient's health and safety (e.g. fall, illness). The group will identify models that can be implemented to offset possible loss of daily contact and identify best practices that enable AAAs to live within the Waiver rate and maintain safety for clients.
